Cornell University Veterinary Specialists (CUVS) is looking for a board-certified cardiologist to join our incredible group. Our specialists are a cohesive team of outstanding clinicians who lead our unique culture of collaboration, communication, respect, and lifelong learning. CUVS is a rapidly growing specialty and emergency hospital. Our 20,000 square-foot facility is located within the new Harbor Point development in downtown Stamford, Connecticut, a growing cultural and commercial hub less than an hour from Manhattan and minutes from commuter trains and the Interstate.

CUVS has board-certified specialists in emergency-critical care, internal medicine, surgery, oncology, ophthalmology, dentistry and oral surgery, and nutrition. The cardiology service is fully equipped with echo machine with TDI, a dedicated interventional suite with 30 FPS C-arm fluoroscopy, computer-based ECG, Holter units, digital radiography, etc. The service is further supported by strong interdepartmental collaboration, including a 7-day/week criticalist-staffed ICU and ER, and experienced emergency clinicians. Advanced infrastructure, technology and an outstanding nursing staff enable maximum efficiency and service, and allow our clinicians to practice optimally. We also benefit from the outstanding resources of Cornell, including opportunities for collaboration, teaching and clinical trials.

Individuals with a passion for their work, a strong sense of collaboration and teamwork, and an appreciation for diversity are strongly encouraged to apply.

Please email your CV and cover letter to the attention of **Dr. Susan G. Hackner**, Chief Medical Officer and Chief Operating Officer, at hr@cuvs.org.
