

Cornell University Veterinary Specialists

Transforming Care. One Life at a Time.

How Far Can Your VTS Take You – and Others?...

Seeking a VTS to Lead Our VTS Mentoring Program

Cornell University Veterinary Specialists (CUVS) is seeking a seasoned veterinary technician specialist (VTS) to lead our VTS mentorship program.

The Hospital

CUVS is a mission-driven specialty and emergency center, providing exceptional and innovative medicine that is both patient-centered and service-oriented. We are an independent, for-profit subsidiary of Cornell University, combining the best aspects of academia and of private practice to create a unique hospital model. Our Core Values include: Patient-Centered Medicine, Integrated Care, and a Culture of Learning.

We have board-certified specialists in Emergency-Critical Care (3), Internal Medicine (4), Surgery (2), Oncology, Ophthalmology, Dentistry & Oral Surgery, Dermatology, Cardiology, Sports Medicine & Rehabilitation, and also an advanced Interventional Radiology-Endoscopy service. **We have a truly exceptional and unique culture that makes for an unparalleled work environment. This culture prioritizes and values the veterinary technician and their essential role in the clinical team.** Our doctors and technicians are a cohesive team of professionals who strongly believe in collaboration, communication, respect, and lifelong learning.

Located in Harbor Point, Stamford, on Connecticut's "Gold Coast", the area offers beauty, a rich cultural experience, and myriad water and other outdoor activities. We are 45 minutes from Manhattan and minutes from commuter trains and the Interstate, offering easy access to other parts of the Northeast.

The Program

We value the VTS – the commitment to exceptional patient care, the academic rigor, and the professional dedication that it denotes – and we wholeheartedly believe in developing the field by mentoring new and exceptional VTSs. To this end, we have several VTSs on our senior Nursing team, and a program to provide other dedicated credentialed technicians the mentorship, support and guidance toward certification in their chosen field.

The Position

We are seeking an individual with outstanding nursing skills, a passion for mentoring others, and superb organizational skills to lead the VTS mentorship program, including board reviews, journal club, continuing education, and guidance through the credentialing and exam preparation process. Support and time off the clinic floor will be provided to enable the program leader to succeed.

CUVS offers an outstanding compensation package with excellent pay structure and terrific benefits that include CE allowance, matching 401k, medical, dental, pet, disability and life insurance.

CUVS is a great place to **utilize your skills and grow your career** in a challenging, rewarding, fun, and respectful environment. Individuals with a passion for their work, a strong sense of collaboration and teamwork, and an appreciation for diversity are strongly encouraged to apply.
